SOUND EFFECTS

Please do not use reproduce my work. If you would like to use it, please drop me a line via mail and give me credit… it took a while to do this! There aren't direct translations for all SFXs and some are repetitive. Sometimes for war-cries and screaming/shouting SFXs it is just better to Romanize it, especially if it is a common one.
Please also note that there are YAOI references made now and then to explain the SFX
Enjoy♬
